

## PRIMARY STATIONS

# PRIMARY OPTIONS FOR YOUR HIGH VOLUME CRUSHING

Lippmann's range of large model primary stations include a 5062, 4850, 4248, 3862, and 3650 to suit your particular heavy-duty, high volume crushing application. Truly massive jaws unmatched in reliability, capacity and productivity. In comparison, the shaft and other components are larger and the frame is much heavier.

- Custom plant design
- Application specific designs to ensure 100% customer satisfaction
- Meets and exceeds expectations for performance and production
- Built for demanding production, strength, and a lifetime of dependability
