ON-TIME DELIVERY

We will gladly work with you to find the best time to deliver your new Lippmann crusher. Our heavy transport services have decades of experience shipping to job sites across the country without incident and on time. Plus, with each new crusher delivered, a Lippmann Certified Service Technician will be on site for all your start-up operator training and to answer any questions.

GENUINE PARTS

All Lippmann machinery is backed by our genuine OEM spare and wear parts engineered specifically for our equipment and designed to keep your equipment at optimal performance. Never settle for substitutes. From shafts to bearings and everything in between, we carry inventory for all major crusher components and can ship them directly to your job site.

EXCEPTIONAL SERVICE

Throughout the life of your equipment, Lippmann field service experts are available to provide technical assistance for new and veteran operators alike. We dispatch all service requests quickly and efficiently so that you can maximize uptime.

UNPARALLELED WARRANTY

No one in the crushing industry stands behind their products better than Lippmann. Our equipment comes with a no-nonsense dual warranty that covers you for 28 months from delivery and 24 months from initial commissioning. While we're optimistic you won't need to use our warranties, we always stand by a promise to make things right.

EXPERT TRAINING

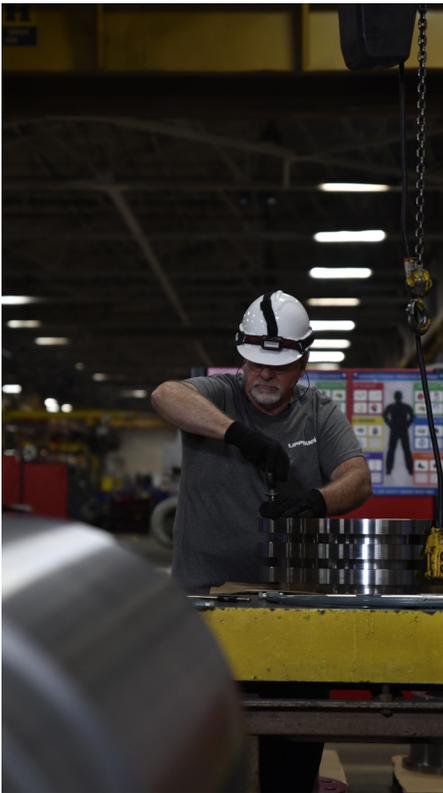

Lippmann offers customized training plans designed specifically for your team. Across the country and around the globe, our experts can provide on-site training to help you keep your operation up and running at peak performance.

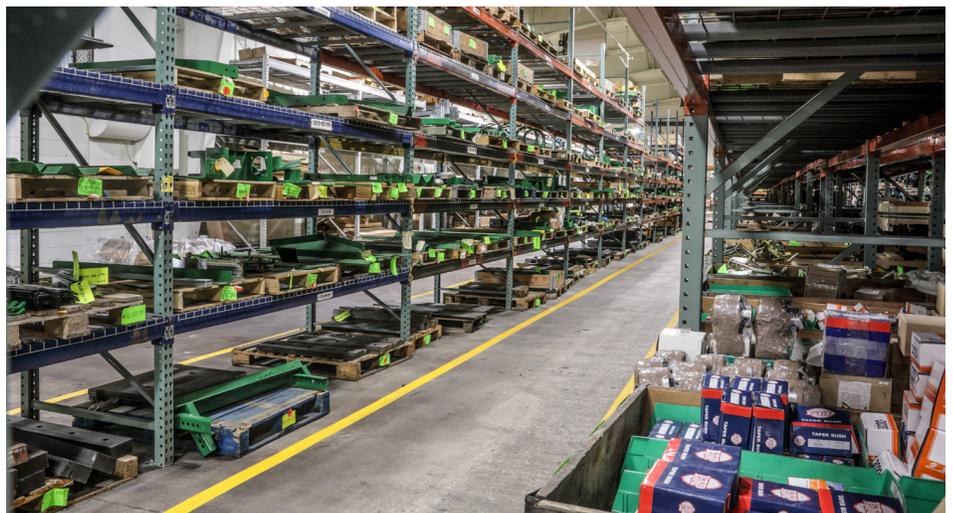

"The reliability of the equipment has been amazing. When we are running, if we need to ask a question they answer. Their customer service has been great."

ANTHONY BOYLE
DIRECTOR OF PRODUCTION
BODEAN

"Lippmann has been there for us over the years. They're always Johnny-on-the-spot when we need parts or service. It was obvious there was no other choice."
