

## PORTABLE SCREEN PLANT

# THE **L620s-w** SCREENER IS THE MARKET LEADER

The L620s-w screen plant features the 6'x20' (1830mm x 6096mm) screen, along with a flex shaft screen drive and cross conveyors or front chute, making it the leader in the market. Wide conveyor belts make it easy to handle any application, while improving production and reducing the bottle necks in crushing circuits.

- Triple shaft screen box
- Features under screen belt
- Includes cross conveyors as standard
- Available with either two- or three- deck screen
- Ideal for an application
