

## MOBILE JAW CRUSHING PLANT

# THE **3447j-w** IS A QUALITY HIGH TONNAGE CRUSHER

The 34x47 wheeled plant has been developed to be a high tonnage crusher with both the ease of maintenance and transportability. The 34" gape allows you to feed a 27.5" rock with ease. The jaw also features an opposing wedge design that allows the producer to make adjustments easily and safely.

- 48" single toggle jaw c/w 200 HP motor
- Integrated motor mount
- Open wheeled chassis for ease of maintenance
- Heavy duty chassis for semi towing
- Heavy duty 4 axle spring suspension
- Chassis cable hooks
- Fast setup time
- 30" cross conveyor for grizzly bypass
- Three discharge conveyor options:
  - A. 12'-9" discharge, single scraper, impact idlers. Only available with self-cleaning permanent magnet.
  - B. 15'-6" folding, single scraper, impact idlers. Only available with self-cleaning permanent magnet.
  - C. 16'-3" folding, dual scraper, Brunon impact bed. Only available with stationary electro-magnet.
- Optional chassis mounted hammer
- Optional electrical control panel - cable termination box as standard
- Optional manual or hydraulic lift off panel if panel option is selected)
- Feeder grizzly options
  - 4-1/2" spacing
  - 5-1/2" spacing
  - 7" spacing
- Hopper options
  - Manual lift off
    - No wings (AR liners)
    - 16ft width w/wings (AR liners)
  - Hydraulic lift off
    - No wings (AR liners)
    - No wings (rubber liners)
    - 20ft width w/wings (rubber liners)
    - 16ft width w/wings (AR liners)
    - Tipping grid (AR liners)

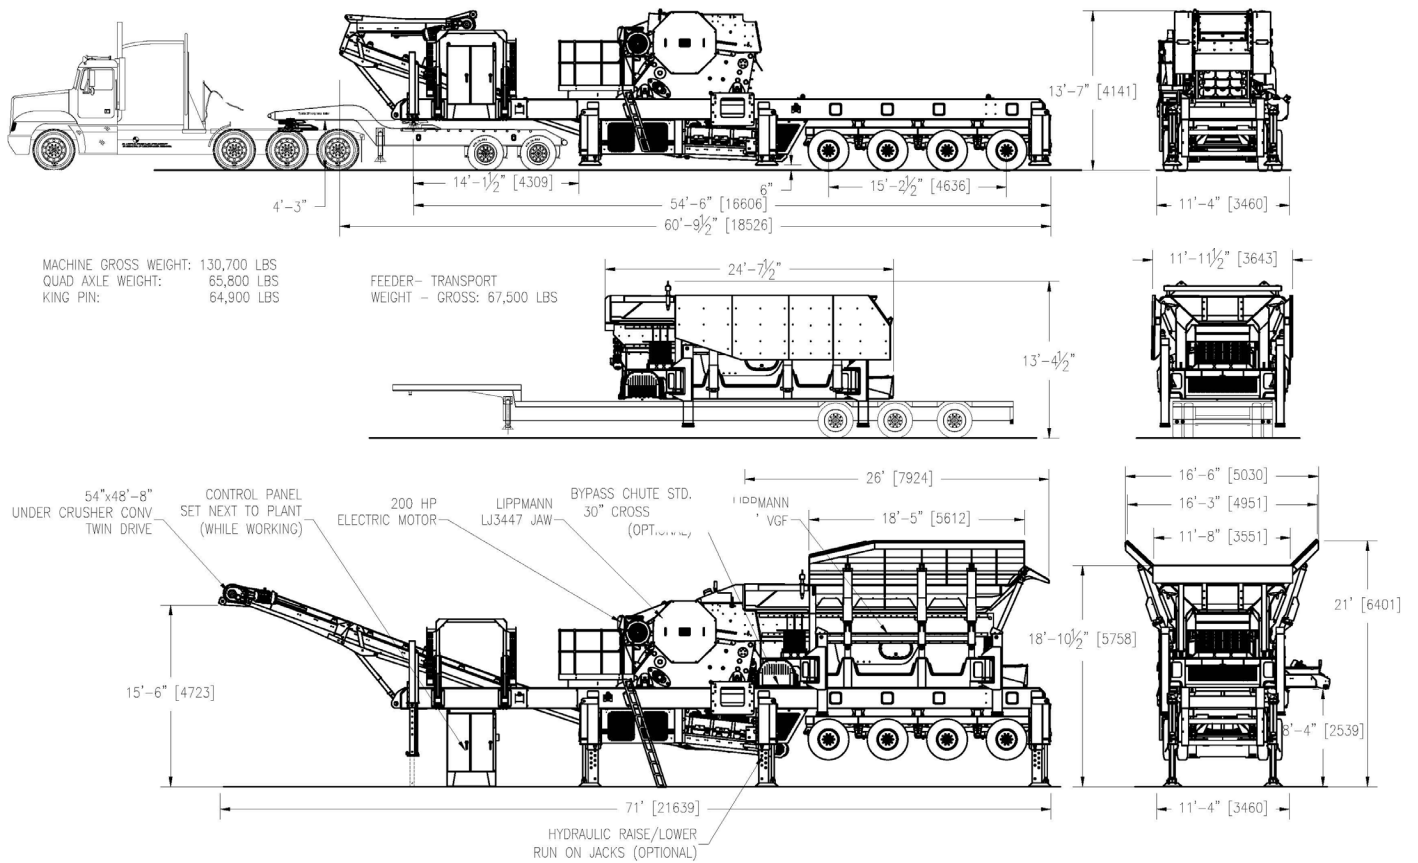

## LIPPMANN

# 3447j-w TECHNICAL SPECIFICATIONS

SPECIFICATIONS	
Jaw Crusher	34" x 47"
Feed Size	27.5"
Discharge Conveyor	54"
Side Conveyor	30"
Pan Feeder	51" x 20'
Bypass Chute Std	Optional
Electric Motor (no diesel drive option)	200HP
Grizzly Section	5'

TRANSPORT DIMENSIONS	
Length	60'-10"
Height	13'-7"
Width	11'-4"

TRANSPORT WEIGHTS (EST.) LBS.	
Plant Gross (conveyor option B)	130,700
Quad	65,800
King Pin	64,900
Hopper (16ft wing, AR liner)	67,500

MACHINE GROSS WEIGHT: 130,700 LBS  
 QUAD AXLE WEIGHT: 65,800 LBS  
 KING PIN: 64,900 LBS

FEEDER - TRANSPORT  
 WEIGHT - GROSS: 67,500 LBS
